

J22

# J22

Programma anta integrata

La casa è intesa come luogo dell'anima, in grado di rispecchiare il modo di essere di chi abita lo spazio, dove il progetto e il design sono funzionali al comfort e al benessere.

J22 è l'espressione del gusto personale che si concretizza nella scelta di materiali diversi, selezionati per definire le proprie esigenze, per creare una dimensione di autenticità.

La casa contribuisce attivamente al benessere di chi la vive. Uno spazio fisico attrezzato da J22 cattura l'esperienza dell'individuo e la trasforma in un progetto intimamente profondo.

The house is considered the place of the soul, capable of reflecting the way of being of those who live in the space, where the project and design are functional to comfort and well-being.

J22 is the expression of personal taste that is realized in the choice of different materials, selected to define the needs, to create a dimension of authenticity.

The house actively contributes to the well-being of those who live there. A physical space equipped by J22 captures the experience of the individual and transforms it into a deeply personal project.

La maison est considérée comme le lieu de l'âme capable de refléter la façon d'être de ceux qui habitent l'espace, où le projet et la conception sont fonctionnels à la commodité et au bien-être.

J22 est l'expression du goût personnel qui se réalise dans le choix des différents matériaux, sélectionnés pour définir les besoins, pour créer la dimension d'authenticité.

La maison contribue activement au bien-être de ceux qui y vivent. Un espace physique équipé par J22 rend chaleur à l'expérience de l'individu.

# Apertura Anta

IT

La presa integrata con sistema profilo J, la "maniglia" per eccellenza, è partire con il piede giusto, conferendo allo spazio cucina il sapore giovane di un design dalle linee pure, attualissima nelle essenze, l'eleganza dei laccati opachi e gli effetti materici, i brillanti riflessi di modernità dei laccati lucidi, effetti legno, tendenze che guardano alla naturalità.

EN

The integrated handle with the "J-profile" system gives to the kitchen space the youthful taste of a pure-line design. The tendency to naturalness is expressed in the topicality of the essences, in the elegance of the matt lacquer and material effects, in the brilliant reflects of modernity of the glossy lacquer, in the warmth of the wood effects.

FR

La prise intégrée avec système de profil en "J" donne à l'espace cuisine le goût jeune d'un design aux lignes pures. L'inclination à la naturalité s'exprime dans l'actualité des essences, dans l'élégance de la laque mate et des effets de matière, dans les reflets brillants de modernité de la laque brillante, dans les effets bois.
